General Conditions

1. Free Repair Plan is available only for customers on our automatic delivery program. It becomes effective only after inspection of equipment and systems by Ehrhart Propane & Oil (Ehrhart). If a service call is required prior to inspection and acceptance, it will be billed at a 15% discount. Advance payment does not make a plan become effective. If unit becomes obsolete or is more than 20 years old, or if customer uses fewer than 500 gallons of propane, coverage may be discontinued at Ehrhart's discretion.
2. Service plans are in effect for 12 months and are self-renewing each year thereafter at prevailing rates, unless customer notifies Ehrhart in writing prior to renewal.
3. Ehrhart's responsibility under a service plan will automatically cease if any propane, fuel service or any parts or equipment covered by the plan are procured from another source, or if customer's account is past due for any charge.
4. In the event that service plan is terminated for any reason by either Ehrhart or customer, there are no pro-rata refunds of remaining months of coverage. Customer may transfer service plan to a new owner or renter, subject to Ehrhart's approval.
5. A heating system tune-up and Gas Check may be procured separately for an additional fee. This service is performed between December 15 and September 15.
6. Free Repairs coverage includes only the repair and replacement of parts that are specifically listed under "Covered Parts" and that are defective due to ordinary use or wear and tear, based on the judgment of Ehrhart. Free Repairs coverage does not include: repairs when failure is due to vacant or unattended premises, blown or loose fuses, emergency switch in the "off" position, thermostat set too low to call for heat, air filters that need to be cleaned or replaced, or radiators that need to be drained or repaired; service or replacement parts due to customer breakage, acts of nature, fire damage, flooding, freezing, explosions or other causes beyond the control of Ehrhart. Such calls are billable, as are calls after regular hours except when customer does not have heat in the winter or has a potential leak. Customer will receive a 15% discount on any repairs not covered explicitly under the plan.
7. Ehrhart shall be released from liability for failure or delay to provide, within a reasonable period, service called for under the plan when failure or delay results from strike or other labor disturbance; fire, flood, lightning or other acts of God; supply shortage of electricity, gas or water; freezing or breaking of pipes; government regulations; extreme weather conditions; unavailability of parts; or improper operation, negligence or misuse of covered equipment.
8. Ehrhart will endeavor to render prompt and efficient service, but it is expressly agreed that Ehrhart Propane & Oil shall in no event be liable for damage or loss caused by delay or any loss arising out of the performance of this plan. The obligation to furnish replacement parts is subject to availability through normal supply sources.

24-hour emergency service:

Available 365 days a year; applies to loss of heat.
